Assignment 2: Your Website

Objective

Develop a website to demonstrate your proficiency in JavaScript solutions.

Tasks

1. Utilize all the skills taught in this course, such as control structures, functions, objects, arrays, JSON, OOP, DOM Manipulation, Event Handling, and Asynchronous JavaScript, etc.

2. Implement at least one skill which is not taught in this course.

3. Use your imagination to decide a practical website. Basically, no other limitations.

Instructions

- Complete the tasks outlined above, implementing the required functionalities.

- Test your application thoroughly to ensure it works as expected.

- Submit both the source and one page summary of implemented functionalities.
